Supervisors assigned to the PBBN Investigations Unit made a 5th unsuccessful attempt at notifying PO schoolcraft to report to duty. They performed observations in Johnstown NY for 5 hours before knocking on his residence door. In addition, we have already consulted with TARU regarding their ability to mask/alter caller I'd info and they have the capability to do so- our next attempt will be to try and call his cell phone from a masked number (to be determined) in the hopes that he will pick up the phone. If successful, however it will probably only be a one-shot deal

Tim
